	2. Transportation- It is the means of carrying the goods and raw		
	materials from the point of production to the point of sale. It is		
	important because unless the goods are physically made available,	,	
	the sale cannot be completed.		
	3. Warehousing- It refers to the act of storing and assorting products		
	in order to create time utility in them.		
	 Inventory Control- Higher the level of inventory, higher will be the 		
	level of service to customers but the cost of carrying the inventory		
	will also be high because lot of capital would be tied up in the		
	stock. Thus, a balance is to be maintained in respect of the cost		
	and customer satisfaction.
